Born with a speech impediment, she now speaks to thousands.

Since her father taught her how to stand on her head as a child, Cheryl has seen the world differently. Her mother ignited an enduring affinity for the *Wizard of Oz* and, like Dorothy, Cheryl dreamt of another place—running away to join the circus as a star of the flying trapeze. She never made it to the circus, but she got close. Cheryl became a Champion on *American Gladiators* in Hollywood (which was a lot like being in the circus). And she's been chasing—and “catching”—her dreams ever since!

An eclectic journey.

Nothing has stopped her—not even a severe, genetic speech impediment and a childhood marred by mockery and inadequacy. It wasn't until college, when a chance meeting with a perfect stranger bearing a gift changed the course of things to come. That's when Cheryl realized she didn't have a speech impediment; she had a “life” impediment. So she made a choice—the choice to change. It may have been the day she first became a champion.

Today, as a speaker, Cheryl magically transports her audience on an entrepreneurial journey, from her own backyard, all the way to Hollywood, *The Home Shopping Network*, and more! Hear how she raised millions of dollars in venture capital as executive producer and star of the 13-time national award-winning children's film, *Adventures in Oz with Cheryl™*. “Not bad for a girl who,” according to Jon Miner, Founder of the Judy Garland Children's Museum, “couldn't even say her name.”

Notice her biceps. Admire her spirit. Remember her message.

Cheryl's uncommon anecdotes are memorable, fascinating and fun. She grabs the microphone, and the audience's attention, then keeps it. Cheryl knows how to shine under the spotlight, offering practical ideas that empower. But she doesn't stop there. This eloquent champion of television, film, and fitness shares even more—her vulnerable off-camera persona.

Through brutally honest storytelling, Cheryl is a catalyst for positive action. She opens up

her heart and shares herself, daring each audience member to dream and discover their own ability to change. Then she helps them gather the courage required to believe they can accomplish more and step under their own spotlight: a place where their dreams become realities.

Dedication. Perspiration. Inspiration.

Cheryl doesn't simply tell others how to succeed; she models success for them, using the voice of experience.

She is not afraid to be human—or imperfect; she knows that the truth, however raw and personal, is powerful; she knows what works and shares it. Cheryl's “if I can do it, you can, too” attitude offers inspiration for every person and every occasion. Her message is powerful; that's her magic.
